

## INDIVIDUAL RETIREMENT ACCOUNT 18 MONTHS – FLOATING RATE

**Opening Eligibility** - To open this account, you must be 18 years of age and deposit at least \$500.00.

**Rate Information** - The Interest Rate on your account is \_\_\_\_% with an Annual Percentage Yield of \_\_\_\_%. This is a Variable Rate Account. Your Interest Rate and Annual Percentage Yield may change. At our discretion, we may change the Interest Rate for your account on the first (1<sup>st</sup>) calendar day of each Calendar Month. Your account will mature on \_\_\_\_\_. The Annual Percentage Yield assumes that interest will remain on deposit until maturity. A withdrawal of interest will reduce earnings. Interest begins to accrue on the business day you deposit non-cash items (for example, checks).

**Balance Computation Method** - We use the Daily Balance Method to calculate the interest on your account. This method applies a daily periodic rate to the Balance in your account each day.

**Compounding and Crediting** - Interest will be accrued daily, compounded and credited monthly to your account on the last calendar day of each Calendar Month and on your account's maturity date.

The redemption value of your account may be less than the principal amount. Redemption value is calculated as follows: Principal plus Interest Earned Minus Penalty Amount.
